THE STOCKMAN'S HANDBOOK By Dr. M. E. Ensminger

This new livestock handbook should be a "must" on everyone's bookshelf interested in the business. Its 585 large, easy-to-read pages also contain hundreds of drawings and charts to make it the most complete volume of its kind that we have found.

It has complete coverage of breeds and breeding, feeding and diseases (both prevention and treatment), forage crops, marketing, fitting and showing, and many other timely and valuable subjects. We rate it "tops".

In order for you to be convinced of its value order a copy today! Look it over for 10 days and if not completely satisfied, return it and we will refund the purchase price. To be a successful stockman, we must be well informed. This book will supply the needed information to help get the job done. Send for your copy today.

OUR SEED LABORATORY

We have had a Seed Laboratory for years to check and test the seed we buy and sell. This is for your protection and ours, and we know you appreciate the great value of this. Our analyst, Earl Lott, is a Registered Senior Member of the Society of Commercial Seed Technologists. His tests are acceptable to ASC in all states and to other agencies.

WE FURNISH TESTS FOR ASC IF WANTED.

We do commercial testing also. May we do some for you? You will like our accuracy, promptness and reasonable rates. Show lot numbers on your representative samples. Mark them for "Seed Laboratory". We shall make complete tests unless you specify only purity or only germination. Will supply envelopes for mailing samples to us upon request.

NOTE: Large ads in January, February and March issues of THE PROGRESSIVE FARMER on Registered D&P 15, Fox and Deltapine Staple Cotton Seed. Inform yourself about these outstanding varieties by reading these ads.
